SUBSCRIPTION RATES:
Daily, delivered by carrier in city, \$1.00
By mail, in advance, \$1.00 per month
Office of Publication—37 HOWARD AVENUE, EDMONTON.
The Daily Capital is published at the following news stands: Alberta Hotel, Central Hotel, Castle Hotel, King Edward Hotel, Windsor Hotel, Dominion City Hotel, Calgary Hotel, Douglas Bookstore, Laidlaw's Bookstore, A. C. Smith's, First Street, Calgary—Alberta Hotel, STRATHCONA—Strathcona Investment Company's, Strathcona Hotel. Readers of The Capital are requested to favor the movement by reporting any irregularities in delivery.

REJUVENATED BY ITS ADVERSITIES

That the liberal party is being rejuvenated through its adversities is made very apparent by the platform which the Ontario liberals are offering and the hold it is taking on the minds of the electors.

Ontario liberals have declared for government telephones, workmen's compensation, exemption of improvements in municipal taxation, and the adoption of the principle of public ownership of utilities.

The liberal party in Alberta and Saskatchewan adopted these planks when these provinces were given self-government, and the liberal party in these provinces has stood by them absolutely, having wrought its ante-election declarations into legislation at Edmonton and Regina.

The returns at the last Dominion elections and the proportionate representation in the two local houses show how strong is the liberal party in Alberta and Saskatchewan.

The liberal party in Ontario has, up until the present, failed to get in line with the forward movement, and the returns of the last Dominion election show how much this failure has cost the party in that province.

LETHBRIDGE GETS INTO LINE

Lethbridge comes next with a demand to the legislature to be put on a single tax basis. Lethbridge is making a request for the single tax amendment at the forthcoming session and by so doing is showing that the citizens of that community have a grasp on the economic verities.

Lethbridge has possibly made the discovery which most other cities make sooner or later, that to tax improvements is to hinder their city's building, that income valuations can be cooked and that personal property can be hidden, while floor-space taxation is no better than a relic of the dark ages when window-panes and chimneys were taxed by the feudal barons.

The great advantage of the single tax is that it is a tax levied on a value created by the community, a value which is not dependent on either the enterprise or the industry of the holder, and a value which cannot be moved into the next county.

Month in and month out the cities which follow the single tax system of deriving revenue head the list in the building returns and there are spectacular instances, such as Seattle, where owners of blocks subject to taxation are selling them out, taking their money to Vancouver, buying lots and building blocks which are not subject to taxation, instances which prove beyond the shadow of a doubt the correctness of the theory that to levy a tax on anything but the land hampers the growth of the city.

The proof of the pudding is in the eating. Lethbridge, one of the brightest of Alberta's cities, has grasped the point, and having grasped it gets into line.

ARE CANADIAN ELECTORS FAIRLY REPRESENTED

Had the representation sent to Ottawa been in proportion to the votes the conservatives would now have at the Capital 114 representatives and the liberals 107. That is to say, there were enough more conservative votes throughout the whole dominion to have elected just seven more representatives.

The natural question is: Are Canadian electors fairly represented?

WHY NOT ALLOW CITIES TO MAKE THEIR OWN CHARTERS?

In the consideration of this charter business there is one question which will present itself to the thoughtful: Why should the legislature be required to have anything to do with the making of charters, anyway? Why not let the cities make their own?

There are, of course, limitations beyond which no city could go without infringing on the authority reserved to the legislature, but within these limitations there really should be no reason for calling on the legislature.

If a city, such as Lethbridge, for instance, should desire to make the change which that city is today asking the government to ratify, placing its taxation on land, would not such a change be quite as effectually made if the power to make it had been left with the ratepayers, who could make the amendment to the charter by a majority vote?

Every year the order paper in the legislature is cluttered with amendments to various city charters, almost all of which are purely matters of local concern, and which could be quite as effectually be settled locally. A general law defining the things which a city could do, and setting the limitations, allowing any city to make any change it desired within those limitations, would be more convenient all around, and undoubtedly more satisfactory.

JUST PARAGRAPHS

While there is not a shadow of doubt that Kubelik is a finished juggler of sounds on the violin, there were those in the audience who would rather have heard a little harmony interspersed with the music, just to be able to judge if he was really a fiddler as well as a violinist.

A new dancer of aviation has developed at Minneapolis where the Wright brothers are being sued for \$25,000, because one of their aviators dropped on some of the spectators and mugged up their millinery, besides doing other damage to their anatomies. Possibly an injunction restraining the bird men from falling would prevent a recurrence of the practice.

EDMONTON

GENERAL FACTS FOR THOSE FACING THE CAPITAL CITY A VISIT

Street railway 26 miles, cost \$980,500.

Water mains 54½ miles, together with plant cost \$903,791. Water supply limited only by capacity of Saskatchewan river. Light and power plant, 5400 kw., cost \$783,143.

Edmonton is situated on three transcontinental railways, has 12 railroad outlets and 9 proposed outlets. American roads coming from south. Individual and unduplicated territory greater of any city on American continent—800 miles west of Winnipeg, 650 miles east of Vancouver.

Coal, ore, oil, natural gas, minerals in close proximity.

Low rate taxation 13.7 mill; \$500,000 new wealth realized by tributary area this year.

Over a hundred wholesale and commission houses in the city.

Fourteen banks and three loan companies.

Municipally owned industrial sites for lease with option of purchase.

BUILDING GROWTH
1909, \$2,128,166; 1910, \$2,158,106; 1911, \$3,650,327 (to Oct. 31).

POPULATION

1905, 9,200; 1906, 14,000; 1907, 18,000; 1908, 20,000; 1909, 23,000; 1910, 25,000; 1911, 28,000.

ASSESSMENTS

1911, \$46,494,740; 1910, \$30,105,110; 1909, \$25,584,990; 1908, \$22,535,700; 1907, \$21,985,700; 1906, \$17,046,798; 1905, \$6,620,985; 1904, \$3,959,648; 1903, \$3,208,100; 1902, \$1,724,420; 1901, \$1,244,731.

FORECAST

At the present rate of development and growth Edmonton will have a population of 100,000 in 1915 and an assessed valuation of \$130,000,000. Its street railway mileage will be 90 miles; paved streets and boulevards, 70 miles; 200 miles of sewers; 250 miles of water mains. Edmonton is growing faster than it can be polished, it is young and rough, but three years will witness a most remarkable development.

Establish yourself in Edmonton now, get busy, grow with the city and make your fortune.

PHENOMENA OF THE GREAT LAKES

Toronto, Nov. 24.—One of the strangest conditions in years now exists on the Great Lakes. The water on Lake Ontario is away below its proper level while on Lake Erie, a rise of ten feet is reported. The Niagara river is normal, but there is no

indication that the surplus water on Lake Erie is gradually finding its way to Lake Ontario. No reason can be given.

GEN. ARTHUR BAY

PERSIA'S TREASURER.

W. Morgan Shuster, and his wife, Mrs. Shuster, is an American who is directing the finances of Persia. He is accused of the embezzlement of the Russian Empire, and the latter has demanded from him the Shah that this shrewd American be expelled from Persia. Russia has practically declared war on Mr. Shuster, and they have sent an armed expedition to occupy two Persian provinces. The ill-feeling was brought about by Mr. Shuster relieving the Persian Cossacks from guarding the Shah's treasury and supplying them with Persian gendarmes, under his officer of his selection.

SLAVERY SAID TO EXIST IN GERMANY

FORMER FEMALE POLICE ASSISTANT PUBLISHES BOOK DEALING WITH THE BUSINESS IN "LITTLE WHITE SLAVES."

(From Cable Service)

Berlin, Nov. 24.—A sensation has been caused in Berlin by the publication of a book entitled "Little White Slaves," written by a former female police assistant, Sister Henriette Arnold, in which the writer alleges that every year hundreds of German children are sold into slavery.

Sister Arnold, based her assertions on her professional experience, and declares that the authorities, as well as the private children protection societies, either intentionally or unintentionally, may commit possibly be ignorant. She also states that she has secured the cooperation of many of the children's hospitals, and declares that every year these concerns, for a stipulated fee, sell off large numbers of orphaned little girls, who even before their birth have become chattels to their parents.

5000 Slaves Secured Monthly.
The book gives one definite instance after another of cases of which the writer has personal knowledge. One of these alleged cases, in reply to a "letter" from a German publisher, it was stated in Germany to France, Belgium, Holland, or Switzerland, and these thousands of "slaves" children monthly. This statement, says the writer of the book, is probably exaggerated for the sake of attractiveness, but in any case it is an admission that the owners in question are prepared to receive the proceeds of children.

Prices range from \$75 to \$250. A female "employment agent" in Berlin, says the writer, told her in the presence of witnesses that she sent children abroad at prices ranging from \$75 to \$250, and that she had a number of children going to Russia. Neither the police, the municipal guardians, nor the children's rescue societies ever created any trouble. Only a few weeks ago a child had been sent to a Russian "house" for \$2,500, but in this case the child came of good stock, from aristocratic parents, and was well worth the price paid for it. The average woman pays for a child of working-class parents in Berlin is said to be \$125 while for children of better-class people more money is paid, ranging up to \$1,250 and \$2,500 for children of noble birth.

The publication of the book has created so great a scandal that the police authorities have been obliged to exercise the pressure of public opinion to open a thorough investigation into the alleged trade in children, and are making exhaustive inquiries into each case as soon as it is reported.

See Special Window Display of This Bargain

(From Cable Service)

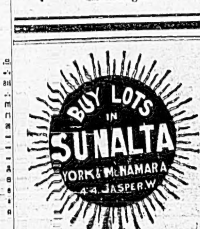

Vienno, Nov. 24.—Yet another Austrian nobleman has renounced his title and title to marry the woman of his choice. The Archduke Ferdinand Karl, brother of the heir presumptive, renounced his title in 1904 to be allowed to marry Princess Gruher, the daughter of a Vienna professor of music, when he met in 1909 at a social function. He was, however, scorned by his late brother Otto during the last few years to postpone his

decision, and spent his time largely in travel.

It is now stated that he lately again approached the Emperor for permission to marry, which his majesty granted on condition that the Archduke become a private citizen. The Emperor consented to continue the allowance of \$3,000 to the Archduke, but the latter must renounce his title, his rank as major-general, his claim to the

possession to the throne, and his seat in the Austro-Hungarian Upper House; and take the simple name of Ferdinand Karl Burg.

The lady for whom the Archduke has waited for over 10 years is now thirty years old, and is distinguished for beauty and talent which brought her into the higher circles of society, though the family is of humble origin and possesses only moderate means.

The Archduke Ferdinand Karl, who is very popular, is devoted to art, science, and theatricals.

GRAIN DEALERS PROTEST.

(Canadian Associated Press)
London, Nov. 24.—British and Continental grain dealers have presented strong protests to the Canadian authorities against the action of the Winnipeg Grain Exchange in lowering the grades of Manitoba wheat, particularly No. 6, of which samples were sent in August and September.

WORLD'S FAIR
SEATTLE 1909

As a hero's court martial. During the fighting in Tripoli, Oct. 23rd, an Italian officer was stabbed in front of the German consulate, and as he lay on the ground was slain by a servant of that consulate, who ran away, committed the murder, and then ran back to the consulate. Fortunately there were witnesses of the crime. The servant was handed over to the authorities, was tried by court martial, which, was open to the public, was found guilty and later was shot on the square with due military formality. The prisoner is the standing Arab in white, and at the table are seated the Italian general and his aids, listening to the witnesses.

Old Country Sport Chat

University Rugby Football

On Wednesday of next week, the important match under Rugby Union rules of Oxford and Cambridge versus St. N. and Army is played. United Services at Portsmouth recently defeated the dark blues by 16 points to 10, after the latter had established a clear lead. But that was right at the start of the season, and since then the Oxonians have shown right good form. Last Saturday they disposed of Gloucester, a side by no means to be despised, by 15 points to nil, and the week previous they recorded an even better performance by beating Richmond by 21 points to nil. As the result suggests, the difference in the two sides was immense. Richmond had in able pack, but that was all. Oxford were a whole team, splendidly balanced, possessed of wonderful speed and rich in creative power. Indeed it looks as if the dark blues are in the way to possess their best rugby side of a number of years. The light blues have not so far gained such high credentials, but should train on into a strong team. The Royal Navy and Army have, of course, unlimited material for the side they will put on the field on Wednesday.

Under Association Rules

At this season of the year the university association football teams are always in the stage of experiment, so that recent defeats of Oxford and Cambridge are results which the vanquished may reasonably regard with equanimity. It is largely a matter of luck when a "varsity" captain discovers his team early in the season. Professor Arnold has, however, established its supremacy in the game played under association rules, and although the day is long past when Cambridge tentatively gave a half blue to her "successor" team, the game has never won the same foothold at public schools as has so long been enjoyed by rugby football. Under rugby rules, professional is practically non-existent, and among a group of Yorkshire and northern clubs, who needed from the rugby since some years ago. Almost any league professional side could defeat with ease the strongest amateur eleven put in the field against them, but in rugby exactly reverse conditions prevail. From time to time there have been winners of the intrusion of the great Welsh clubs to schools from the rugby union, but happily for the good of the game they have not been sustained.

Stevenson and Gray

Conditions under which Stevenson and Gray will meet are as follows: To play three games of 18,000 yds, on level terms, for £250 a side game, two in London, and one in the provinces (probably at Liverpool), under Billiard Control Club rules, and with bannan balls. It seems foretold that Stevenson will lose all three games, for though the wonderful Australian has not been playing nearly so well with bannan balls as he did with crystalline balls last season, he has been steadily practising with the for-

mer, and is improving each week. Championship billiards is unnecessarily confused by use of various tables and makes of balls, but as things are there can be no game for the world championship with other than Ivory balls, and the match arranged as above will carry with it nothing more than a financial reward.

World Sculling Match

Ernest Barry states there is no possible chance of his going to Australia to row against Richard Armit for the world's championship, and prospects of a match for the title are therefore remote, unless the public responds to an appeal that may be made in England for sufficient funds to guarantee Armit's expenses should he come over. Barry has come on a lot since he lost to Armit on the Zambesi, and might be expected to make a much better showing on the Putney course, while Armit would be at a corresponding disadvantage. In fact, could the match be arranged on home waters Barry would undoubtedly represent the short end of the money, and it would be a big drawing attraction.

Boxing in England

Following the agitation which led to the abandonment of the Johnson-Weils fight, the opponents of boxing in England have had it all their own way. James White, the promoter of that big fiasco, had no better luck with the Wells-Muir contest, he engaged to take place, for the ground landlords of Earl's Court threatened the licensees with all kinds of penalties if the match were held there, and the abandonment of that half cent lessens of halls all over the metropolis to come. In fact, outside the licensed sporting clubs it would be next to impossible to arrange a big bout with a race attracted anywhere in London, and the sport has received a staggering blow. In other parts of the country the effects of the Johnson-Weils controversy are making themselves felt, and Jack Johnson himself has been refused a permit for a lecture and demonstration at Birmingham. The tendency is to discourage anything approaching prize fighting all along the line, and if scientific boxing is not outlawed there, possibly it is all for the best.

Dr. Cadham Makes Plea for Players

Winnipeg Sportsman Thinks Semi-Pro. Hockeyists Are Deserving of Reinstatement

Winnipeg, Nov. 23.—An interesting discussion took place last night at the annual meeting of the Winnipeg Hockey League, when Dr. Cadham, of the Victorias, made a plea that the league adopt a resolution recommending the reinstatement of Billy Keen, Billy Irwin and Billy Field, former stars who are now making application to the amateur union to be allowed to enter the ranks of the senior players. He stated that he could vouch for the three men named, and he felt that the league as a body should place itself on record as endorsing favorable action by the board of governors, and recommending the men as worthy of being again admitted to the fold.

Mr. Pratt pointed out that as one of the delegates, a motion along this line would place him in an awkward position, as he was president of the amateur body, and as such he had a duty to perform, which was to decide on the cases on the evidence submitted. Mr. Gannon thought he would vote as instructed, but he also was of the opinion that the delegates should be sent without instructions. Mr. Keen at this stage asked that no motion going on discussion be passed by the delegates, as far as he was concerned he valued his case decided on its merits. He was grateful to Dr. Cadham, but felt that he must be left to the discretion of the representatives of the league. The three present agreed that the men were worthy of the support of the league, but that the delegates be left without instruction, and this was finally decided on.

It was quite evident that the majority of these present had their favor on the application of the men, although the endorsement will not appear on the books of the league.

BARNEY OLDFIELD MAY BE REINSTATED

Savannah, Ga., Nov. 21.—It was announced here today that Barney Oldfield may take part in the Vanderbilt cup race next year, the American automobile champion is now in the race if the automobile association decides to reinstate him. This is a result of yesterday's accident, which cost the life of Driver McKay, Maxwell, mechanic of the wrecked, and was in a critical condition, and Maxwell, driver of one of the cars which was dented in order to avoid a collision with McKay's wreck, probably will be unable to start in Monday's race because of his injuries.

JOHNSON MORE PUTS UP LOSING LEA

Appears in English Court with Counsel

Jack Johnson, the colored pugilist, was the defendant in a summons at the Marylebone county court, for £12 3s for rent of a flat at 1, Grosvenor house, Northumberland street, Paddington, and for damages for destruction of crockery and furniture. The plaintiff was Jennie Carlton. The usher called "John Arthur Johnson" in a loud voice, but there was no response. "Call Jack Johnson," suggested the registrar, but with the same result. "I suppose he is coming," said the registrar. "This defendant seems to arise from excessive strength in the breaking of certain crockery," (laughter.) Plaintiff's solicitor—And furniture. When later the case came on for the honor Sir William Stirling, Mr. Stirling

FUDGE
is nicest when
made with
Fry's
THE
Cocoa

Mix 2 cups granulated sugar and 2 tablespoons FRY'S Cocoa. Stir in a cup milk and boil very slowly for 20 minutes to a half hour—until it forms a ball when dropped into cold water. Remove from fire, add teaspoonful of vanilla extract, beat until stiff, pour into pan, and when cool cut in squares. FRY'S Cocoa makes fudge of an exquisitely delicate and rich flavor. Try it.

acc Samuel appeared as counsel for the plaintiff, but the defendant was still unrepresented.

Mr. Samuel explained that the defendant was John Arthur Johnson, the well known pugilist.

His Honor—Did he smash crockery or what?

Council—He smashed a great deal of crockery.

Miss Jennie Carlton, the plaintiff said she was the tenant of the flat, which she let to Jack Johnson on July 5, at four guineas a week.

Council—And in consequence of his lively conduct did you give him notice to quit on July 27?

Continuing the witness said she went to the flat on August 7, but the place was not empty. Mrs. Johnson was there. She stated that she was hit, and asked to be allowed to stay on. Mrs. Johnson was also there the next day, leaving at 4 o'clock in the afternoon.

Council—What condition was the flat in when you went in? It was in a very filthy state.

We're all these things broken (referring to the statement of claim): Yes.

With reference to a tea service, for which £1 15s was claimed, His Honor asked if the price included the whole set. "Yes," said the witness. "They split the old one."

His Honor—I don't know about that. Most of us have to go on with our sets when things get broken.

Judgment was given for the plaintiff for £7 2s with costs.

VIENNESE BURGLAR IS KILLED BY SHOCK

Fell Dead When Surprised in the Act of Robbing House of Woman of the City

(Globe Cable Service.)

Vienna, Nov. 23.—A man named Albert Blum suddenly fell down dead this week on a sudden surprise while committing a burglary. The owner of a house in Vienna when returning to her dwelling found a young man engaged in searching a cupboard with his back towards the door. She shrieked: "What are you doing there?" whereupon the man threw up his hands and fell backwards on the floor. A post mortem established the fact that death was due to heart failure from fright.

MRS. FRANCES O'DONAGHESBY—Who was placed on trial for her life in New York today for the murder of her husband.

POPULAR AMUSEMENT HOUSE FOR BERLIN

Palatial Establishment Will Be Erected in the German Capital City

Berlin, Nov. 23.—Berlin, the city of cafes and music, is shortly to have another palatial establishment in which visitors may sip their coffee or light German beer and listen to the music of well-trained orchestras any hour in the town.

The new popular night, never-ceasing music for the enjoyment of the heart of the city, is to be erected in the most luxurious description. Each single chair, of which there will be hundreds in the building, will cost \$12.50, and will be modified after the furniture of a well-known royal castle. No fewer than 15,000 electric lamps will illuminate the great building at night, and four orchestras, playing in relays of six hours each, will render music for the enjoyment of the heart of the city, is to be erected in the most luxurious description.

The interior furnishings will be of the most luxurious description. Each single chair, of which there will be hundreds in the building, will cost \$12.50, and will be modified after the furniture of a well-known royal castle. No fewer than 15,000 electric lamps will illuminate the great building at night, and four orchestras, playing in relays of six hours each, will render music for the enjoyment of the heart of the city, is to be erected in the most luxurious description.

MCDUGALL CHURCH QUARTERLY MEETING

Soloists Will be Paid in Future—Cups for the Sunday School Hockey League.

The second quarterly official meeting of McDougall church for the current year was held last evening. An audited statement of the receipts and expenditures was presented, showing substantial progress. The collector for 1912 for all purposes make up a total of \$28,000. It was decided to secure an assistant minister, owing to the increase of the congregation and of pastoral work. It was decided to assist the choir in obtaining the highest efficiency by a vote of \$3,000 to secure paid singers. It is expected that the new four manual pipe organ will shortly be installed. The auditorium is not to be used for entertainment purposes by organizations outside of the church, except in very special cases, as the constant demand for the use of the auditorium is interfering with the work of the church. A committee was appointed to consider the installation of a new organ for the use of persons afflicted with deafness. The first anniversary of the opening of the new church will be observed on the second Sunday of December. Application will be made for the laying of a corner stone on First street and College avenue adjoining the church. A cup is to be given to the Sunday School Hockey League of the city to be contested for by the various teams of the different churches. All proceeds in connection with the history of the church are to be collected and preserved.

G.T.P. STEELHEAD PASSES BOUNDARY

TRACKLAYERS CHOSE DIVIDE AND ARE NOW WORKING IN BRITISH COLUMBIA.

According to latest information brought in from the mountain railway camps on the G.T.P., the head of steel on the line is now three miles east of the boundary between Alberta and British Columbia. It crossed the divide about nine o'clock last Monday morning and steady progress has been made ever since. The grade of the road is practically completed to mile 22 at the west end of Moose Lake. All the trestles between the summit and mile 29 have been built and everything is in shape for steel laying to proceed without delay. It is expected that the remaining twenty-six miles of grade west of the summit will be covered early in December.

MORE MONEY FOR THE CITY STORES

SUPERINTENDENT BUTLER SUGGESTS ANOTHER \$52,000 BE ADDED TO COST

Another dip into the public money sack, on the part of the stores and works department of the city is recommended by Superintendent Butler of that department. Mr. Butler this morning recommended to the city commissioners that the sum of \$12,750 be provided for the construction of a warehouse for the stores and works department. There is now provided some \$12,000 for this purpose and work was to have been started last summer. This department heads were unable to secure a system of procedure and the construction of this warehouse was crowded aside by other more urgent matters. With the addition of \$12,750 to the money already set aside for stores and works, there will be a fund of \$24,750 with which to put up extensive quarters. The report was laid on the table to be taken up later. J. B. McIntosh rendered a bill to the city for \$783.75 as commission for securing options in behalf of the city on properties purchased in connection with the East End bridge site. This money is 2 1/2 per cent, on \$31,500. Connecting upon the bill, Mr. McIntosh noted that the usual commission was 3 per cent, on the first thousand dollars and that he had charged under regulation commission. The bill was ordered paid.

NINE CHOIRS TO GIVE A CONCERT

UNDER AUSPICES OF ALBERTA MUSICAL FESTIVAL—MCDUGALL CHURCH THIS EVENING.

Under the auspices of the Alberta Musical Festival, a concert in which nine of the church choirs in the city and the Strathcona Choral society will take part will be held in McDougall Methodist church this evening. The purpose of the entertainment is to provide sufficient funds to liquidate the deficit that was found to exist after the musical festival last spring. The soloists of the evening will be Mrs. A. McLean, Miss Penelope Davis, W. G. Hendra, David Jones and Ernest Hartworth. Following is the complete programme:
"O! Canada, Beloved Fatherland..."
"God Is a Spirit," (The Woman of Samaria)...
"Light in Darkness"...
"Lord Kindly Light"...
"Gloria From Twelfth Mass"...
"Ave Verum"...
"Unfold Ye Portals"...
"My Redeemer and My Lord"...
"He Shall Feed His Flock"...
"Awake, Put on Thy Strength"...
"O! Hush Thee, My Babe!"...
"The Old Super"...
"Once Aboard the Luge"...
"Crossing the Bar"...
"Romance of the Coast"...
"The Magic of Spring"...
"An Indian Love Song"...
"Moonlight"...
"God Save the King"

FARM TOO FAR FROM THE TOWN

HALF-SECTION DONATED BY CANADIAN PACIFIC RAILWAY FOR ANOTHER

The half section of land donated by the Canadian Pacific railway to the province government for the purposes of a demonstration farm at Sedgewick will be disposed of next year and the work of the department of agriculture will in future be carried on upon another half section, more conveniently located in respect to the town. The new site has been recently acquired by the government. Charles Stewart of Niton member of the legislative assembly for the constituency of Sedgewick stated to the capital this morning, the original location proved to be too remote from the town for the purposes of the department. It is two miles from the town and the vicinity of the model farm established by the C. P. R. The half section which was recently been purchased by the government is within half mile of the town. It will not be able to be established from the C. P. R. land, but the half section will be sold. The land was ploughed and harrowed and packed during the summer, ready for the season of 1912 and seed fall wheat has been sown. No buildings have been erected, however, on the original farm, but stables and superintendent's residence have been erected on the permanent site. Stacks will be fed on the farm throughout the winter and next year the equipment will be complete. C. P. R. Farms a Success.

Mr. Stewart, who came into the city this morning from the south and is a guest at the Yale, stated that the experiment in small farms in providing a desired success. In some quarters there has been some little dissatisfaction, but the English farmers who have been placed on the land are making good and promise to develop into excellent farmers. The demonstration company, however, as it is understood to abandon their original policy of selling land to immigrants from overseas alone. Canadian and all other western settlers will be given an opportunity to purchase the ready-made farms.

"This change in policy," said Mr. Stewart this morning, "is in my opinion a wise one. The formation of colonies of distinct nationality, in such a way that the settlers may pass on in the country, is comparative isolation from the general body of citizens, is not a desirable thing. Fusion of the races is the problem which faces the western provinces today. No policy that

Jewelry

THIS DATE IN HISTORY

Frances Hodgson Burnett.
Frances Hodgson Burnett, the well known author and playwright, was born in Manchester, England, November 24, 1849. Her maiden name was Frances Eliza Hodgson. In 1865 her family came to America and located in Knoxville, Tenn. In 1878 she was married to D. L. M. Burnett, and thereafter lived in Washington, D. C. At the age of 18 she began writing for the magazines, but it was not until the publication of her "Little Lord Fauntleroy" in 1886, that she became famous as an author. Both in book and dramatic form "Little Lord Fauntleroy" won wide popularity on both sides of the Atlantic and earned for its author a large fortune. Other popular stories that have come from Mrs. Burnett's pen are "Riddle's Daughter," "A Lady of Quality" and "Little Lord Fauntleroy." In 1891 the author obtained a divorce from her first husband and a few years later was married to Stephen Townsend, an English writer.

MISS MARY SUTHERLAND, daughter of Rear-Admiral William B. M. Sutherland, U.S.N., of Washington, who has announced her engagement to Mr. Louis Bacon, of Boston.

CHARGE OF CRUELTY PROVES BASELESS

COMMISSION APPOINTED TO INVESTIGATE CASES OF ALLEGED TORTURE IN PRISONS PRESENTS REPORT

Madrid, Nov. 18.—In connection with the charges of torturing prisoners in the jails of Culiera and Suca recently brought by certain radical deputies against the authorities, the Captain-General of Valencia, General Echagón, telegraphs that the special commission of inquiry appointed by him to investigate the matter has presented its report after examining prisoners for several hours. The commission consisted of seven members of the medical profession and included four civilians, one of whom, the rector of the university of Valencia, acted as president, and its unanimous conclusion was that the condition of the prisoners showed no traces whatever of the ill-treatment they are alleged to have received.

The result of the inquiry is received with general satisfaction, even the "Laborista," a Moderate Republican organ, accepting the conclusions of the commission without hesitation. "The hope is, however," expressed that the full text is available. The three principal accusers rejected their designations before a specially-appointed military "Jefe de Instrucción" at Valencia.

FLYING MACHINES OF USE IN MODERN WAR

Italian Government is Thoroughly Satisfied with Recent Achievements of Army Aeronauts

Milan, Nov. 23.—The Italian government is so satisfied with the success of aeroplanes in war that it has ordered several from Levallois, of Paris. In the course of an interview given to the "Secolo," M. Bleriot admits that the order has been received. M. Levallois was present, and said that the Italians had established the fact that aeroplanes afforded ideal means of reconnaissance in wartime. In a few years he thought aeroplanes would provide a terrible weapon of offence. Flying machines, even now, were ready for the end, but do not possess projectiles suitable for dropping among the enemy. M. Bleriot added that none thought, two years ago, when he crossed the Channel, that aeroplanes would so soon be used in actual warfare.

BOYS' SPIRIT PLAY LEADS TO GOLD RUSH

Intense Excitement is Caused by Discovery of Gold Quartz in New South Wales

Melbourne, Nov. 18.—As a result of a small boy's spirit of play there has been a great gold rush to Pandanus recently. The lad, pretending he was a prospector, chipped off pieces of quartz in an abandoned mine situated in that district in New South Wales. Some of his elders happened to see the quartz and found it heavily studded with gold. They went to work at once and opened up a lode that averaged two to four hundred ounces to the ton. The entire vicinity was soon out-pogged. Conservative prospectors doubt the permanency of the camp, but the discovery has caused intense excitement.

HOME-MADE SWORDS FOR CANADIANS

Col. Sam Hughes Believes in Fostering Sword-Making Industry in Canada

Ottawa, Nov. 23.—It is not improbable that steps will be taken by Hon. Sam Hughes to have the swords used by the officers of the Canadian militia made in Canada. He finds that the excitement made at a recent military conference that the swords carried by the Canadian officers are made in Germany is in a large measure correct. They are for the most part made in that country and only finished in England. If it is found that British-made swords cannot be stocked, steps will be taken to have them manufactured in this country.

Welland, Ont., Nov. 21.—James Hall died here, aged 79 years. He was public school inspector of Welland County for about thirty years, resigning about twelve years ago. He leaves a widow, one son and three daughters.

NEW RESCUE HOME FORMALLY OPENED

REV. DR. McQUEEN AND OTHER DIVINES DELIVER ADDRESSES AT THE OPENING CEREMONY YESTERDAY

The formal opening of the new rescue home which will be under the management of the Baulth mission was held yesterday afternoon with appropriate ceremonies. Several ministers of Edmonton and from outside points being present. Short addresses were delivered by Rev. Dr. McQueen, Rev. C. A. Myers, Rev. Mr. Powell and Rev. Gerville of Lindsay, presiding editor of the Memorial church. Alex. Chatham who has been responsible for founding the home started work in the city four years ago, commencing with a mission, then establishing a shelter for men and finally securing the rescue home which has cost \$14,000 to build and furnish. Two acres of land as grounds for the building were donated by Mr. Donald who has also made some cash contributions to the building and superintended the work of construction. Three thousand dollars of the cost of the building was donated by the city council. There is still an outstanding debt of \$5,000 to be paid out and Miss Chatham would be pleased to receive subscriptions.

METHODISTS TO HOLD BIG RALLY

NEW YEAR'S RALLY WILL BE HELD IN METHODIST CHURCH—SUNDAY SCHOOL UNION MEET LAST NIGHT

A decision was reached at a meeting of the executive of the Methodist Sunday school union held in the Y.M.C.A. parlors last evening to hold a New Year's rally in Methodist church. The committee on program consisting of Mr. J. Robinson, A. Bulech and V. T. Richards was appointed to look after the arrangements for the event. They will procure 1000 suitable new year's cards for distribution among the children who attend. It was also decided to hold the annual banquet in Wesleyan Methodist church about every 25th and A. T. Cushing, J. M. Gindlin and W. Drago were appointed a committee to look after the arrangements.

J. M. Gindlin was elected secretary of the Sunday school union to take the place of the late secretary, J. A. McDonald who has removed from the city.

DIPLOMATIST ROBBED IN A PARIS TRAIN

Paris, Nov. 18.—M. Pruno, a secretary of the French embassy at Rome, was the victim of a daring train robbery a few days ago. He was returning to Paris by the express from Rome and had diplomatic messages in his charge, and had engaged a berth in a sleeping car in order to rest for a few hours before arriving in Paris in the early morning. Between Dijon and Laroche, which is the last stop before Paris, he noticed that his pocket case and purse were missing. A search was made and both objects were found at the end of the corridor, but completely empty. Mr. Pruno is the loser of \$80, but congratulates himself on the fact that his dispatch book was not taken.

WINTER SCHEDULE CANADIAN NORTHERN

Time tables have been issued by the C.N.R. for the winter schedule of train service which will come into effect on Sunday, November 26th. The double passenger service which has been operated during the summer months will be removed from it when the winter schedule comes into force.

One passenger train a day only will run between Edmonton and Winnipeg. It will leave Edmonton at 1:15 p.m., arriving in Winnipeg at 7:20 a.m., on second day. The train from Winnipeg will reach Edmonton at 7:15 a.m.

Changes in the division of the C.N.R. western lines will be brought into effect with the new schedule. On the cover of the time table the name of A. Wilcox is mentioned as general superintendent at Edmonton. Mr. Wilcox was only recently appointed assistant general superintendent to J. H. Cameron in Winnipeg. Mr. Cameron's name appears on the time card as assistant General Manager, to M. H. McLeod.

Superintendent W. A. Brown of the Edmonton district is out of town at present and it is not known whether the readjustment of divisions will mean a change in his position or not. His name appears in new schedule as superintendent of District No. 2 at Edmonton. This district comprises practically all the lines west of Humboldt with a total mileage of 703 miles.

The western division over which Mr. Wilcox will have jurisdiction comprises all the lines in operation west of Hamilton, Saskatchewan, is comprised 2,075 miles of line. The division has been divided into three districts with headquarters at Hamilton, Saskatoon and Edmonton.

The name of the Grand Trunk Pacific station on the main line in the mountain section formerly known as Poudre Creek has been changed to Steele Hot Springs. It is at this point that the large tourist hotel will be erected and the water from the hot springs which are only a few miles distant from the railway will be piped to the hotel site and built will be established.

Sugarman's Great

Retiring from Business Sale

It will pay you to visit this Sale. All selling records will be broken to accomplish rapid clearance. Big Values that will fill the store to overflowing. You cannot in justice to your own interest remain away from this Sale. Having decided to retire from the Clothing Business, the stock, fixtures and good-will has been sold, to be handed over to other hands on January 15th. The stock must be reduced from \$45,000 to \$10,000 before that date. We are forced to sell the stock. A sweeping, closing out, clearance must be absolute, goods almost given away. This will be the greatest sale ever held in Edmonton.

\$45,000.00 Worth of High Class Men's Clothing, Shoes and Furnishings

LARGE FAMILY HAS ITS TRIALS

CANNOT FIND A LANDLORD IN PARIS WHO IS WILLING TO RENT THEM APARTMENTS.

Paris, Nov. 18.—The situation revealed by the extraordinary case of a family named Unand who are unable to find a landlord to let an apartment in Paris in a family of eleven persons, was one of the chief subjects of discussion at the French club meeting at the French club last week. The privilege that Paris possesses places the responsibility of solving the difficulties in the hands of the municipality, but the club also accepts it as its duty to treat the question in its national aspect. Accordingly, M. Galloux, minister of the interior, has drafted a bill to grant the municipal council full powers in encouraging the construction of working-class dwellings, to be let at low rental. Hitherto the local authorities have been able only to give small subsidies, but under M. Galloux's new bill they will be able to subsidize all schemes that tend to lower the rents, or to provide accommodation for large families, and even to buy out working-class dwellings under municipal ownership and management.

This last provision means subsidizing a revolution in municipal administration, for the powers of municipal authorities in France are much more restricted than those in foreign countries, and here municipal trading is relatively speaking non-existent. In another bill M. Galloux intends to grant to local authorities power to intervene in the question of food prices. The scheme is similar to that for the encouragement of lower rents, and provides for either subsidizing or owning and managing bakeries and butchers' shops.

FUND IS PROVIDED FOR STRICKEN PEASANTRY

Russian Government Votes \$500,000 to Relieve Famine in Czar's Domain

Odessa, Nov. 21.—The Imperial government has assigned \$500,000 for the relief of the famine-stricken peasantry in the government of Saratoff, but it is believed that a second and similar amount will later be necessary to tide the people over the winter. The winter, however, government of Saratoff and part of the Ukrainian region, where the famine conditions are nearly as acute as they are in Saratoff, are also to receive considerable relief grants. The local Zemstvos have already exhausted their powers of relief, and government aid on a large scale is absolutely and vitally necessary to tide the people over from starvation. The famine is due to almost complete failure of the crop in those regions.

CELESTIALS SMUGGLED ACROSS THE BOUNDARY

United States Officials Claim That Chinamen Cross the Line from Canada

(Western Associated Press.)
Chicago, Ill., Nov. 21.—One of the latest Chinese smuggling plots unearthed by federal officials in years was revealed today when George Nelson was arraigned before U. S. Commissioner Pote charged with bringing Chinamen into the country from Canada. Twenty men charged with being implicated in the plot are under arrest in Quebec, New York and Detroit, where the band made its headquarters according to special agent, Wm. J. Henderson, of the department of justice, who had been working on the case for two months.

The Chinamen it is said arrived at Vancouver, B. C., where they are put to work until they have earned their passage. Later the immigrants were taken to either Windsor or Toronto by representatives of the alleged smugglers and brought into this country in freight cars.

TRY CAPITAL WANT ADS.

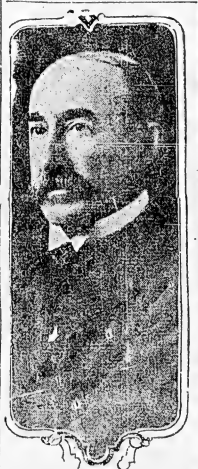

GERMAN INVENTS NEW ARMOR PLATE

IS VERY LIGHT BUT IS SAID TO CONTAIN GREAT RESISTING POWER.

London, Nov. 18.—A German engineer named Schumann has invented an entirely new kind of armor plate which has just been tested by the naval authorities and reported upon favorably.

The peculiarity of the armor is its extreme lightness, as compared with Krupp armor, while it has been proved, it is said, to be equal, if not greater, resisting power. This armor is made up of a special aluminum alloy faced by a thin hardened steel plate. Gun shells of it have been definitely ordered for the new cruiser Strassburg, and its extensive employment is expected.

It is at present considered doubtful whether the new system of armor of battleships, which have to stand the shocks of heavy projectiles as well as face penetration risks, but it is expected to be extremely useful for armor-belted ocean vessels. In such cases something like a revolution in armor construction may be anticipated. More important still, this system is likely to be found applicable to destroyers without appreciably reducing their speed—the thing that has always defeated all attempts to armor destroyers in the past. It is computed that the vital parts of destroyers could be completely protected by the new armor without the loss of more than one knot speed at the utmost. This would render their virtually immune against 12-pounders, such as the broadsword carrier, and possibly also active 14-in. guns as well.

JOHN HAYS HAMMOND, United States ambassador to Russia.

ITALY EXTENDS SPHERE OF WAR

(Western Associated Press.)
London, Nov. 21.—The Daily Mail's Constantinople correspondent says that the Russian over-land ambassadors have informed the Porte that their governments have received notification of Italy's intention to prosecute the Albanians.

A GREAT CAMPAIGN FOR EDMONTON

To the People of Edmonton:

Next week, what will be the most important advertising campaign for the City of Edmonton that has ever been undertaken, will be carried out by a three-fold movement covering the entire Dominion of Canada.

This three-fold campaign will be:

1. A series of six large advertising articles concerning the EDMONTON PORTLAND CEMENT CO., LTD., which will appear in the daily papers of every city of Canada from Charlottetown, Prince Edward Island, to Victoria, British Columbia.

2. 100,000 letters mailed to a carefully selected list of prospective investors, covering the whole of Canada, and offering the stock of the Edmonton Portland Cement Company to the public at \$110 per share.

3. A letter to every Bank Manager in Canada, about 3,000 in all, explaining just what this campaign means, and authorizing the Banks to receive stock subscriptions for the Edmonton Portland Cement Company Limited.

These advertising articles will be reproduced from day to day in the Edmonton daily newspapers, just as they will appear in the big metropolitan dailies throughout Canada. But, of course, this advertising must be read from the standpoint of the Eastern Canadian, rather than from the view point of the citizen of Edmonton.

Now, in order to make clear just what this campaign means, a brief preliminary explanation is necessary. This campaign has for its purpose the attracting of capital to Edmonton from all over Canada for the purpose of developing the great industrial institutions of the Northwest, of which the EDMONTON PORTLAND CEMENT COMPANY is the first.

THE NEW EMPIRE OF THE NORTHWEST.

No one who knows Northwestern Canada at all, doubts but that it is the Land of Opportunity in the British Empire. Here is a soil with a wealth-producing power of at least twenty-five dollars per acre—more than double the crop-producing value of the Mississippi valley. Less than two per cent. of the acreage of Alberta has yet been plowed. When these prairies are all occupied, this great Northwest will be the richest spot on the American continent. And the stake is all here now. The millions of dollars in wealth that will be created here in the next few years is potentially here now, waiting for the men who have the vision and courage to claim it.

This wealth will be created in four ways:

1. IN THE INCREASE IN VALUE OF FARM LAND.
2. IN THE DEVELOPMENT OF TOWNS AND CITIES.
3. BY THE CULTIVATION OF NATURAL PRODUCTS.
4. BY MINING AND MANUFACTURING.

The Edmonton Portland Cement Company will serve as an illustration of the last. This Company owns the very best materials sufficient for the manufacture of at least 12,500,000 barrels of Portland Cement. The price of Portland Cement in this district is about \$3.40 per barrel. But assuming an average price of or \$2.00 per barrel, the Edmonton Portland Cement Company will produce from its deposits a commodity which can be turned into cash to the amount of \$25,000,000. The average cost of manufacture will not exceed 80 cents per barrel, or \$10,000,000, and the earnings to shareholders created by this single institution will amount to more than \$15,000,000. This is not the kind of wealth which one man must lose that another may have, but it is wealth taken out of the ground.

And this is but an illustration of what the industrial development of the Northwest means. Every mine means the products of the earth converted into wealth. Every mill and factory means raw materials turned into useful commodities and converted into wealth. And in the development of the lands, the opening of the

mines, and the building of the mills, a great nation-wide commercial autonomy is coming into being, that will create wealth beyond the wildest dreams of today, provide homes for millions, and profitable employment for hundreds of thousands. And with it all will add to the value of every man's possessions and enlarge the compass of his life.

EDMONTON HOLDS THE KEY.

Edmonton is the gateway of this coming Empire that is now in the making. This city is on the line of the most northern trans-continental railroad that can ever be built. The products of all the great Northwest must find their market and their outlet here. And EDMONTON HOLDS THE KEY TO THE DEVELOPMENT OF THIS COMING EMPIRE. It is for the people of Edmonton to say how we shall go about it. And this great campaign of next week is the first great step in the right building of the greatest wealth-producing section of the new world.

Next week we shall tell the people of all Canada about the resources and opportunities of the Edmonton country. And we shall invite their co-operation and assistance. More than one hundred thousand substantial citizens of Canada will receive a letter next week, telling them about this country and one of its great enterprises. More than one million people will read this series of advertisements in the daily papers of Canada. Our literature, with a special letter explaining what we are doing, will be on the desk of every bank manager in Canada. And for six days and longer the people of this whole Dominion will be thinking about Edmonton, talking about Edmonton, and the eyes of a Nation will be turned this way.

CAPITAL ABUNDANT.

There will be no lack of response. The capital of the British Empire is seeking just such opportunities as we have here in abundance. And it is only necessary for us to convince the people of the East that we are building these institutions RIGHT. And to do that Edmonton has an institution organized for the one purpose of building successful businesses: an institution equipped with every facility for organizing, financing, building, and putting into successful operation the mills and factories of the Northwest.

This is the EDMONTON IDEA—Organization. It means combining the patriotic spirit and capital of the East with the opportunities of the Northwest, building the factories of this country right, managing them economically, and administering their affairs wisely. And of this the Edmonton Portland Cement Company is the first demonstration.

THE EDMONTON IDEA.

What is needed now is for the public spirit of this community to organize around a Common Idea. And that idea is RIGHT ORGANIZATION. We are going to organize these companies right. We are going to finance them adequately. We are going to build these mills properly. And then we are going to operate them successfully. This is the EDMONTON IDEA—ORGANIZATION.

The business men of Edmonton have shown their faith in this enterprise by subscribing for shares in the Edmonton Portland Cement Company to the amount of nearly a half million dollars. And now the capital and the patriotic enterprise of this whole nation is going to join hands with us in fulfilling the destiny of this Land of Opportunity.

What it will mean to have the whole Canadian nation thinking about Edmonton, talking about Edmonton, believing in Edmonton, spreading the Edmonton Idea, and sending their capital to this city for investment, can scarcely be overestimated.

And now we want the people of this community to catch the spirit of the Great Campaign—realize what it means to this country—and read the articles as they will appear in all of the Edmonton dailies next week, and first, last, and always believe in the Edmonton Idea.

ALLAN HAYNES LIMITED

Desperate Desmond

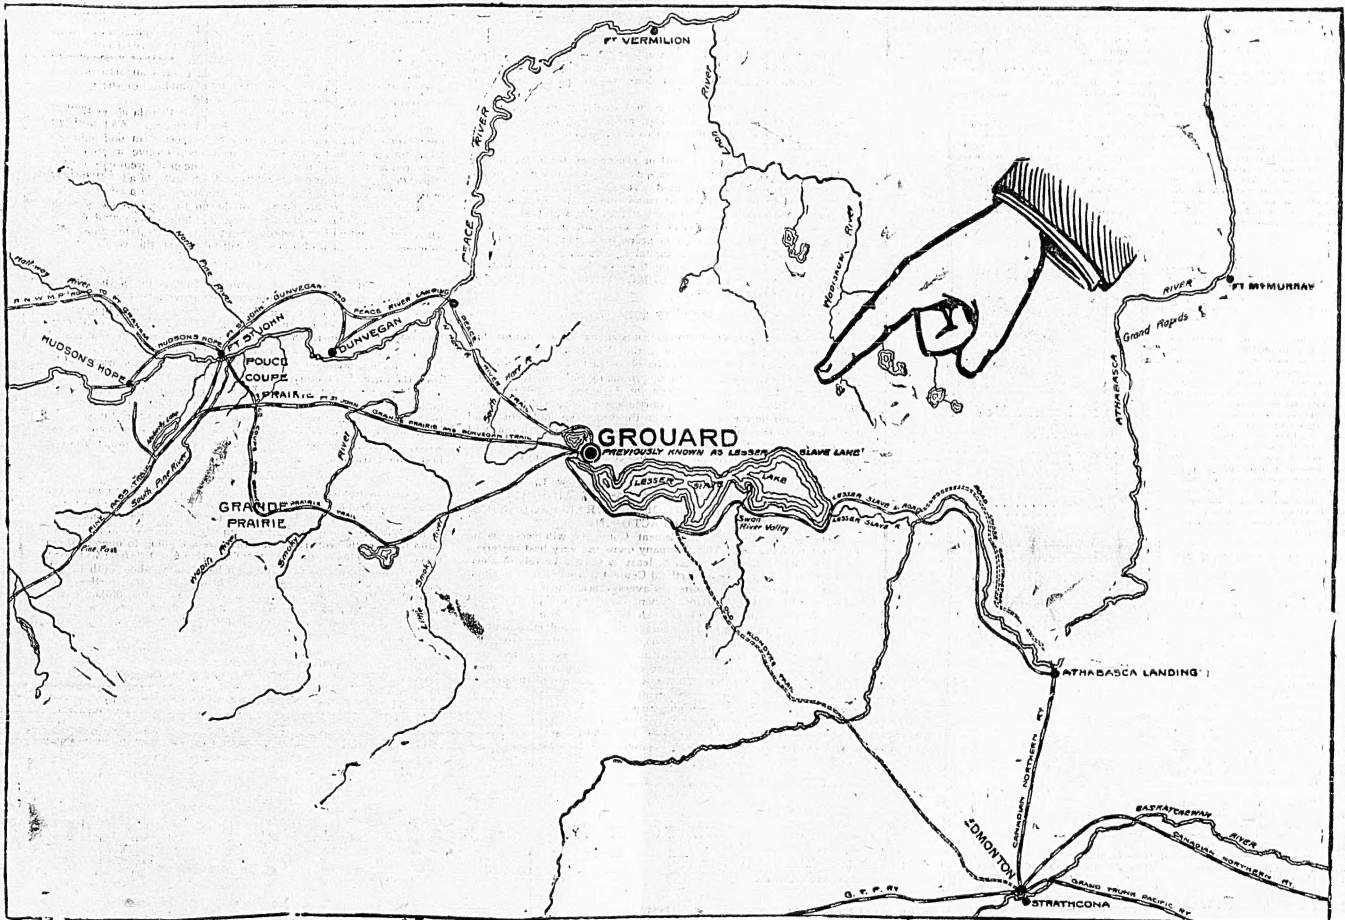

Little Phillis, Rosamond's schoolboy brother, makes a brave attempt to capture Chief Gomgote, but the Wild Man gets him instead.

BIG PROFITS CAN BE MADE BY BUYING NOW IN

GROUARD Lesser Slave Lake

GROUARD is a place for the Business Man, Professional Man, Capitalist, Investor and Farmer. It is not a subdivision or a proposed townsite—it is in the very heart of an established town. Read its history, its resources. Look at the map and be convinced of its future. Profit by this offer

TWO PROPOSED RAILWAYS

GROUARD has a population of 450.
 GROUARD is a seat of a Catholic Bishop House.
 GROUARD is also a seat of an Anglican Bishop house. There is also a Methodist minister.
 GROUARD has a Post Office, Government Telegraph Office, Telephone, Weather Bureau, Mounted Police, two doctors, drugstore, bakery, blacksmith shop, boarding house, saw mill, land office for the far famed Peace River; general stores of the Hudson Bay Co., Revillon Bros., Peace River Trading & Land Co., and V. Maurice; the Bank of Commerce has a branch there; also a hotel will be there soon.
 From July 31 to September 31st of this year 284 homesteads have been filed at the Grouard Land Office.

It is not necessary to repeat here the story of the boom in real estate which has taken place in other Western Cities, where people without capital have made big fortunes.

If anybody tells you that it is an undesirable proposition, judge for yourself—study the location, price; also the transportation facilities; also the future of Grouard when the Canadian Northern branch will be opened between Edmonton and Athabasca Landing. Do not be deceived by people who criticize every proposition put on the market.

Go into this proposition right now if you want to buy the best lots at original prices. Later on you will laugh at the people who are skeptical about investing when you did and refused to buy when exceptional offers were made to them.

CHIEF'S AUTO WAS OUT OF COMMISSION

And Motor Scooters Could Not Be Caught With Proper Evidence.

In reply to the commissioners regarding automobile speeding the chief of police communicated this morning that several auto drivers had been warned by the police department and the difficulty in securing evidence necessary for conviction had prevented arrests in several instances.

The chief of police stated that his own automobile had been out of commission undergoing repairs during the good weather when speeding was fine; but it is in trim now and attention will be given to auto drivers.

Regarding some regulations to guarantee competent drivers the chief of police stated that the attorney-general is framing a bill to cover the licensing of auto drivers and that this would probably cover the situation.

ASK COMPENSATION UNDER THE STATUTE

Absence of Important Witness Causes Court to Take Adjournment.

Joseph Evans, who was injured in an accident at the plant of the Edmonton Concrete company some months ago, will bring claim for compensation under the Alberta compensation act in the district court this afternoon. The claim will be adjourned before his honor Judge Taylor.

Evans was incapacitated for some six weeks through injuries sustained while he was at work in the company's plant, his right foot being severely crushed. Under the act he will claim half wages for the period during which he has been unable to earn a living.

The case was to have been disposed of this morning, but owing to the failure of an important witness to put in an appearance, an adjournment was found necessary.

WORKINGMEN ARE FORCED TO KICK

STREET CAR SERVICE TO NORTH LARIO-TON IS FAR FROM SATISFACTORY.

Numerous individual complaints about things great and small have been made regarding the street car management without causing a ripple, but a wholesale complaint tendered by a hundred men made to the city commissioners this morning is going to cause a little splash—even if only for the time being. Alleging that street car conductors on the morning cars running to North Edmonton have had no workers' tickets about every second or third morning for the past two weeks, that the time service cannot be depended on from either end of the line, half a hundred working men had a petition before the commissioners this morning asking relief from the aggravating situation. The petition stated that the conductors on these early morning cars to north Edmonton were without tickets every two or three mornings for the past two weeks. The petition cited an instance of lack of transportation management when the North Edmonton car was ahead of schedule one day last week and left three-fourths of the men behind; another instance was cited where the car called for the men at 6 o'clock, had arrived at 5:58 and had pulled out before the workers had quite leaving at 6 o'clock, thereby leaving the workmen behind; also of the same car and same crew the following evening arriving five minutes late and waiting five minutes more with everybody aboard before the car started. The petition stated that it appeared as if the cars were operated in a manner to aggravate the public as much as possible.

This communication is to be taken up with the superintendent of the railway system and of the job. Transportation is a business all of itself and is paramount in the qualification of street car management.

When the street railway superintendent is before the commissioners to discuss these various matters the mayor will likewise request that he have his conductors learn to speak the names of streets loudly and distinctly and not mumble them or speak them with a nasal twang. And above all things, the mayor will insist on every street being called, and at the proper time.

Labor leaders assert that the fight between the plumbers and the steam fitters has cost the building trade workers of Chicago, \$8,500,000.

KEEN BIDDING AT S'CONA TAX SALE

ONE HUNDRED LOTS WERE PURCHASED AT AUCTION UP TO NOON TODAY.

Strathcona, Nov. 24.—In a room packed to the doors with Edmonton and Strathcona buyers the sale of \$100,000 worth of city property put up to auction to cover arrears of taxes which fell due before the end of the municipal year of 1910, opened in the city hall at 10 o'clock this morning. At noon in the neighborhood of 100 lots had been disposed of, and the bidding was keen throughout. The arrears are in the main in small amounts. Comparatively little inside property has been sold, but the location was very cheap. The sale was continued this afternoon. Yesterday morning the arrears of taxes amounted to something in the neighborhood of \$18,000. About \$7,000 came into the city treasury yesterday in payment of taxes, and another \$1,000 this morning brought the total value of the property put up for auction down to \$10,000. The owners of the land can redeem their property at any time within the next twelve months upon payment of 10 per cent interest upon the arrears of taxes due.

ENTIRE JUNKET ON CITY'S BUSINESS

AND ALDERMEN'S EXPENSE ACCOUNTS WILL INCLUDE THE SIDE JOURNEYS AS WELL.

Not only will the report of the delegation of city officials who went to Ottawa deal with what Dorden said and what the minister of justice said, but it will also include the expenses pertaining to some of the numerous other cities of the United States and Canada visited by the delegation. The delegation will include the journey to Boston, Springfield, St. Paul, Detroit, Chicago, Buffalo, and in short it will include the entire junket.

City hall inspection was one day perambled by the delegation. The mayor says he never saw one city hall which he would have at all. The mayor only took in St. Paul, Chicago and Detroit across the border. He saw nothing either in the States or Canada that he considers a creditable city hall, not for Edmonton, anyway.

At Seattle, Washington, an important alliance has been formed, which embraces brewers, members of the district legislative league and representatives of organized labor.

ENGLISHMAN KILLED BY CHINESE PIRATES

IN DESPERATE BATTLE WHICH RESULTS IN BRITISH SHIP BEING CAPTURED AND LOOTED

Hongkong, Nov. 24.—After a desperate fight with the crew, in which Chief Officer H. B. Nicholson, an Englishman, was killed, Chinese pirates captured and looted the British steamship Shinon, near Kongkong, according to a message received here today. The pirates brutally assaulted every one aboard, chopped off the legs from two Chinese prisoners in mere sport. The English naval authorities are expected to take vigorous action immediately.

WARMER WEATHER AIDS CONTRACTORS

Building of Canadian Northern Grade East of Pembina River Proceeding Rapidly.

Good progress is being made with construction work on the C.N.R. main line grade east of the Pembina river, according to H. Winslow. The mild weather of the past few days has made it possible to open up the work and proceed with it without delay or trouble of kind as a result of the frost and particularly all the light work on the grade is cleaned up. Considerable quantities of dirt have still to be moved in the big cut east of the Pembina river, however, but with continued good weather, Mr. Winslow expects that the entire grade will be ready for steel by December 20th.

GREAT INTEREST IN CHAMPIONSHIP GAME

Between Varsity and Argonauts Tomorrow—Record Attendance Is Expected—No Well Matched.

Toronto, Ont., Nov. 24.—Tremendous interest is being taken in the Varsity-Argonaut game tomorrow for the rugby championship of Canada. While opinion is naturally divided, there is a strong feeling that the Varsity will win, perhaps decisively, while a victory for Argos will be considered as a big surprise and cause of great jubilation at Rosedale. The impartial view favors Varsity with a leading towards Argos to pull out a victory for the good of the game. The betting shows slight bias in favor of the students. An attendance of over 20,000 is expected.

COUNSEL BRIDE IN OUR CAPITAL CITIES

NO RESOLVED CONVENTION OF
MUNICIPAL DELEGATES—RESOLU-
TION IS REQUIRED.

From the secretary of the Union of Canadian Cities comes to the mayor of Edmonton at this time a copy of the resolution passed at the convention of the union last August, whereby it was recommended that the task of beautifying and improving provincial and national capitals be made a provincial and national task, respectively. The resolution at hand is as follows:

"The capital city of a province should be an ideal city, and an example in every way to the municipalities dominated by it. Its officials should be men of the highest type, chosen from the whole province for their work and efficiency.

"That whilst it is universally admitted that a general move is being made toward every improvement which can be achieved in every city, and it is quite becoming that public property to cities that occupy the dignified position of national or provincial capitals of this country should be properly cared for by the national or provincial governments.

"That this union of Canadian municipalities views with favor, and will uphold with all the influence of its power, any initiative which may originate either in the national or provincial capitals of Canada to promote the improvement and embellishment to such cities in a manner which would tend to make them models of development and progress to all municipalities.

"That this convention is of the opinion that such cities as are the provincial or federal capitals are under heavier obligations than other cities and have to shoulder obligations of a much more extensive nature than other localities, in the form of public receptions, exemptions from taxation for federal and provincial properties, and such embellishments as tend to beautify the seats of government."

HEALTH OFFICER FAVORS DAY LABOR

SCAVENGING WILL COST CITY
ONLY \$12,000 IN 1911 AS COM-
PARED WITH \$20,000 1907.

A strong argument in behalf of day labor in preference to contract for municipal work performed will be made in the annual report of the health department. During the year 1907 the scavenger department to the city cost the municipality over \$20,000, the annual report of the health department will show that this branch of the department's work cost the city \$12,000, or 40 per cent less, \$12,000, in 1907 the city of Edmonton was a small town as compared to the present time. In 1907 the city had this scavenger work done by contract. Only this last fiscal year has the health department been doing this work itself under the direction of its own own man superintendent Peters.

As the city grows the scavenger costs decrease instead of increase. At least, such has been the experience during the past four years. In 1908 the cost to the city for this work was some \$18,000 and in 1909 some \$16,000 and in 1910 still cheaper and this year it will be \$12,000, a sum large in one sense of the word but small when compared with \$20,000.

Medical Officer of Health Whitlaw is delighted with the showing made with his scavenger department, especially so because when he chose to take over the work himself instead of entrusting it to contractors, it was predicted that the cost would be materially increased. He attributes the success of this management entirely to Superintendent Peters, who has charge of this work.

DENTAL SURGERY MOST IMPORTANT

SWEDEN HAS 30 COMPLETE DENTAL SURGERIES FOR SCHOOL CHILDREN

(Globe Cable Service.) Stockholm, Nov. 24.—Great attention is paid to dental surgery in Sweden. Sweden, with five and a half millions of inhabitants, has about thirty complete dental surgeries for school children, while Germany, with sixty-five millions, has only 100. In the dental surgeries for school children in Sweden a journal is kept in regard to every child. Surgeries are open every day, and the children are treated by a dental surgeon and his assistant. Hitherto dental surgery has been free of charge, but the idea has gained more ground that those children who can afford it ought to pay a small sum yearly for the treatment of their teeth. Experience goes to show that both the children and their parents place great value upon the establishment of dental surgeries, being almost all. A good many of the replies also state that the children are quieter and more obedient since the acting up of the surgeries, and various other improvements from a hygienic point of view have been experienced.

NEUTRAL NATIONS WILL BE AFFECTED

BY ITALIAN PROPOSED BLOCK-
ADE OF DARDANELLES TO
BRING TURKS TO TIME

Constantinople, Nov. 24.—Neutral commerce is seriously threatened by proposed blockade of Dardanelles by Italians and Turkey's consequent defensive measures. Ambassadors of foreign powers here are conferring on the subject as it is believed that Italian action will not be delayed much longer. It is thought Italy may eventually force Dardanelles and dictate her terms of peace at Constantinople.

CITY DELEGATION NO APPOINTMENT

MAJOR SAYS THERE WAS NO AR-
RAANGING MEET-
THE GOVERNMENT.

The delegation which went to Ottawa to present the demands of the city of Edmonton never expected or anticipated meeting the premier and ministers assembled, according to the mayor himself this morning. The mayor headed the delegation. The delegates expected to go to Ottawa and meet the premier in his office, and the various eighteen ministers in their respective offices, or as many of them as were at home on the 10th. The mayor says that the impression they were to meet the cabinet is erroneous. He expresses great satisfaction at the treatment received by himself and fellow delegates.

MAETERLINCK'S THEATRE MANAGER

INTERESTING LITERARY LEGAL
SUIT TO BEGIN IN BEHALF OF
WELL-KNOWN PLAYWRIGHT

(Globe Cable Service.) Brussels, Nov. 24.—A most interesting literary legal suit is about to begin before the civil court here between Maurice Maeterlinck, the author of the "Life of the Bee" and "The Blue Bird," on the one hand, and the manager of the Theatre du Parc on the other.

Last year, during the Brussels International exhibition, the Theatre du Parc organized a series of "evening nights," offering foreign visitors samples of the best dramatic works produced by native authors. To represent Maeterlinck's management chose "Sour Beatrie." This mystical drama has not yet been performed anywhere, but they believed themselves fully authorized to produce it, as it had been published. Hearing that "Sour Beatrie" was being played in Brussels, the author wired from France a formal protest, pointing out that the performances were injurious to his reputation, as "Sour Beatrie" was only intended as the libretto of a lyrical drama, and that the Theatre du Parc was thereby giving a mutilated and colorless version of his work.

Now M. Maeterlinck is suing the Brussels theatre for damages, chiefly with a view to establishing the principle that even printed drama is not common property, although the letter of the law seems to point to the contrary. His case will be pleaded by the famous barrister, Heestersloot, who will produce a book of Maeterlinck's which states explicitly that "Sour Beatrie" was written exclusively for musical accompaniment.

STRIKE IN TURKEY NEARS GRAVE CRISIS

OPPOSING POLITICAL ELEMENTS
MAY CLASH—MUCH DEPENDS
ON ARMY'S ATTITUDE

(Globe Cable Service.) Constantinople, Nov. 24.—Although the struggle between the committee of Union and Progress and the sound political elements in Turkey is by no means at its fiercest, the nearness of no crisis and the intensity of mutual animosities may be gauged by numerous signs and tokens, which the government is sedulously striving to conceal. The upshot of the impending conflict must, of course, depend upon the attitude of the army. The sympathies of a large and increasing body of military men have been already forfeited by the committee, which unfortunately neglected the opportunity of effectually defending Tripoli against Italian aggression.

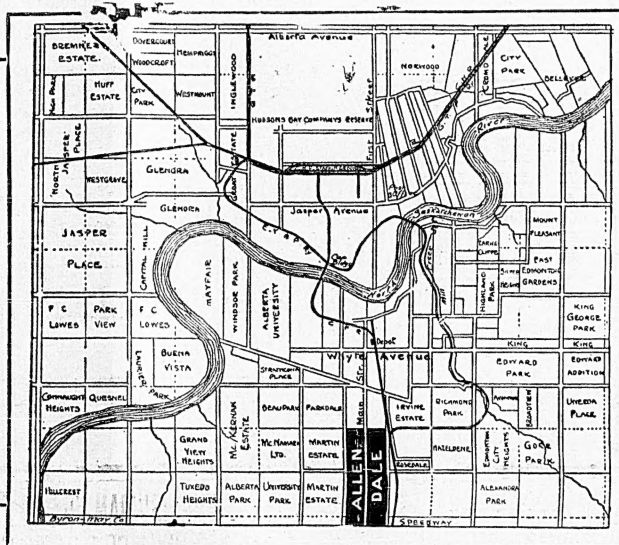

The numerical force of the two antagonistic sections of the army cannot be accurately estimated but the action of the cabinet leads to the belief that the strength of its adversaries among army officers is formidable. Recently, fifty officers who were obnoxious to the government were transferred from Constantinople to Macedonia. Groups of officers of prominent standing here have held meetings at which they passed resolutions binding patriotic military officers to abstain from all intercourse with the committee. A feeling of indignation is growing fast against the secret body which has its own not only above the constitution but above the vital interests of the nation. Rumors are also being spread that the government is plotting to suppress the committee, which is brewing in Salonika. Whether these reports are well founded or not cannot be ascertained, but the persons who still believe that the committee can maintain its

unrushed position and that tranquility can be preserved in Turkey is dwindling rapidly. Nothing could be more characteristic of the situation than the manner in which the Sultan is uniformly ignored by the secret junta.

NOTES FROM THE LABOR WORLD.
In the Netherlands the predominant hours in most industries are ten to eleven a day.
The British government has been to appoint a board of trade commission, empowered to arbitrate labor disputes.
The International Workers' Union reports a total increase in membership for the last quarter of 2,015 with an expenditure in sick benefits for the same period of \$45,327.
Seven hundred and fifty-five companies from the United States have built factories in Canada since 1900. Many of these are larger than the original plants in the United States.
The lockout in the building trades of Sweden is gradually drawing to an end, although only firm after another is surrendering the masters' organization and making peace on their own accord.
The great progress has been made during the last year in improving the working conditions of children in the United States, according to the annual report of the national child labor committee.

Carters in the Eastern district of Middleham, Scotland, have gone on strike and some hundreds of the men are out, the dispute arising over the hours of labor and the recognition of the men's union.
There is a powerful movement in Germany to require all girls, regardless of station, to do compulsory domestic service, just as the young men are required under the law to do compulsory military service.
An increase in wages approximating six per cent, reduced working hours and the sharing of a lump sum of \$15,000 have been granted to the Baltimore and Ohio and the Baltimore and Ohio Southwestern railway's telegraphers.

Prior to their organization the telegraphers of Atlanta, Ga., got 25 cents an hour and worked ten hours a day. Since organization their wages have been increased to 38 cents an hour and the day's work has been reduced to nine hours.
Indiana union men are going to make an effort to inaugurate a plan that will reduce the cost of living. An effort will be made to arrange some form of co-operative purchasing which will eliminate the middleman and his exorbitant profits.
In New South Wales and some other Australian states the governments

are passing bills to assist the working man in erecting homes. The working man can borrow money from the government at a moderate rate of interest, and pay in installments the cost of the house.
LORD OCEIL ELECTED.
London, Nov. 24.—The by-election for the British division of North-Westshire rendered necessary through the death by suicide of the sitting Unionist member, Dr. Hilder, resulted in the election of Lord Oceil. Lord Oceil, an increased majority over T. T. O'Connell, the former Unionist, secured 904 votes.
